

1	Course Name:
	STRATEGIC MANAGEMENT INFORMATION SYSTEMS
2	Course Code:
	IEB41103
3	Year and Semester Offered:
	Year 3 Semester 2
4	Credit Hours Value:
	3 Credit Hours [3 SLT Credit]
5	Prerequisite(s), if applicable:
	NA
6	Course Synopsis:
	The course prepares students with interests in information systems management to face business management issues as they seek to obtain better value from the IT/IS investments. The course also helps students to recognise the nature of the strategic fit between business strategy and the information systems or IT. It also seeks to develop a wider appreciation of a variety of issues relating to the management of information systems in organisations.
7	Course Learning Outcome:
	Upon completion of the course, students should be able to: 1. Examine the alignment of business strategy frameworks, organisational strategies and information system strategy. 2. Assess the practices of strategic implementation of information systems, the management of change, and the structural and cultural impact of IT. 3. Demonstrate professionalism in managerial considerations on transforming the vision to the implementation and strategy of enterprise IT architecture and infrastructure.
8	Content Outline:
