

1	Course Name:
	Network Routing and Switching
2	Course Code:
	INB23804
3	Year and Semester Offered:
	Year 2 Semester 1
4	Credit Hours Value:
	4 Credit Hours [4 SLT Credit]
5	Prerequisite(s), if applicable:
	INB12604 Network Fundamentals
6	Course Synopsis:
	This course describes the architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic and advanced functionality.
7	Course Learning Outcome:
	Upon completion of the course, students should be able to: 1. Demonstrate knowledge in basic and enhanced switching and routing technologies. 2. Construct the operations of routers and switches in a small-to-medium size network. 3. Assist in offering a solution to an issue that arises in a small-to-medium sized network.
8	Content Outline:
	Topic
	1. Routing Concepts
	2. Static Routing
	3. Dynamic Routing
	4. Switching Concepts
	5. Switch Security Configurations
	6. VLANs
	7. Inter-VLAN Routing
	8. Standard Access Control List (ACLs)
	9. DHCP
	10. NAT for IPv4
	11. Device Discovery, Management and Maintenance

	12. Bridging Topic
