

1	Course Name:
	Interaction Design
2	Course Code:
	ISB36403
3	Year and Semester Offered:
	Year 2 Semester 2
4	Credit Hours Value:
	3 Credit Hours [3 SLT Credit]
5	Prerequisite(s), if applicable:
	NIL
6	Course Synopsis: This course presents the areas covered in Interaction Design and emphasizes a variety of topics from design principles, user interface, user experience, and usability. Students will learn the theory underlying interaction design and acquire the skills necessary to analyse, design, and evaluate prototypes.
7	Course Learning Outcome: Upon completion of the course, students should be able to: 1. Discuss the fundamental concept, process and importance of Interaction Design. 2. Analyze design requirements through user research and data gathering. 3. Prepare a prototype by applying concepts and principles of interaction design.
8	Content Outline:
	Topic
	1. Interaction Design Fundamentals
	2. User Interface and User Experience Design Principles
	3. Interaction Types
	4. Interfaces
	5. User Research and Data Gathering
	6. Design Requirements
	7. Design and Prototyping
	8. Evaluation
